

PBO Praktikum Modul ke-2

Nama : Abdillah Ahmad

NIM : L200180074

Kelas : B

Class hewan

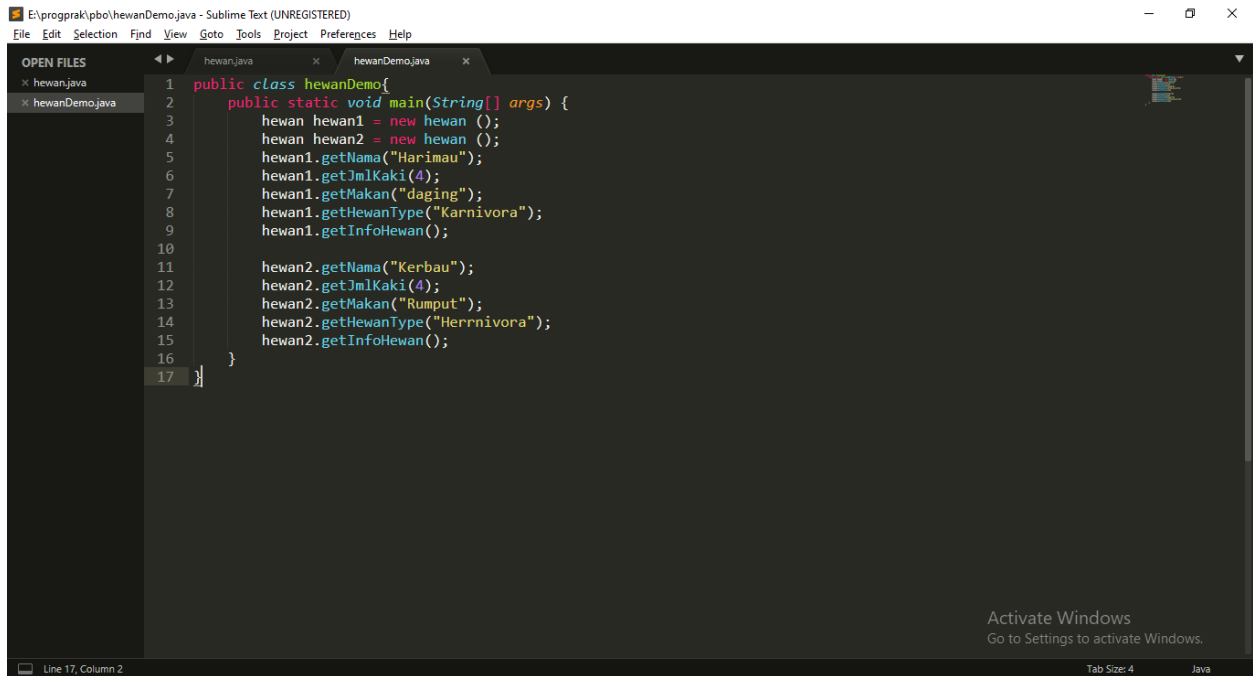

The screenshot shows a Sublime Text editor window with the file path "E:\prograprak\pbo\hewan.java - Sublime Text (UNREGISTERED)". The editor displays the following Java code for the 'hewan' class:

```
1 public class hewan {  
2     String nama;  
3     int jmlKaki;  
4     String makan;  
5     String hewantype;  
6  
7     void getName(String nama){ this.nama = nama;}  
8     void getJmlKaki(int jmlKaki){ this.jmlKaki = jmlKaki;}  
9     void getMakan(String makan){ this.makan = makan;}  
10    void getHewanType(String hewantype){ this.hewantype = hewantype;}  
11  
12    void getInfoHewan(){  
13        System.out.println(  
14            "Nama Hewan : " + nama + "\n" +  
15            "Jumlah Kaki : " + jmlKaki + "\n" +  
16            "Makanan : " + makan + "\n" +  
17            "Hewan type : " + hewantype + "\n\n"  
18        );  
19    }  
20 }
```

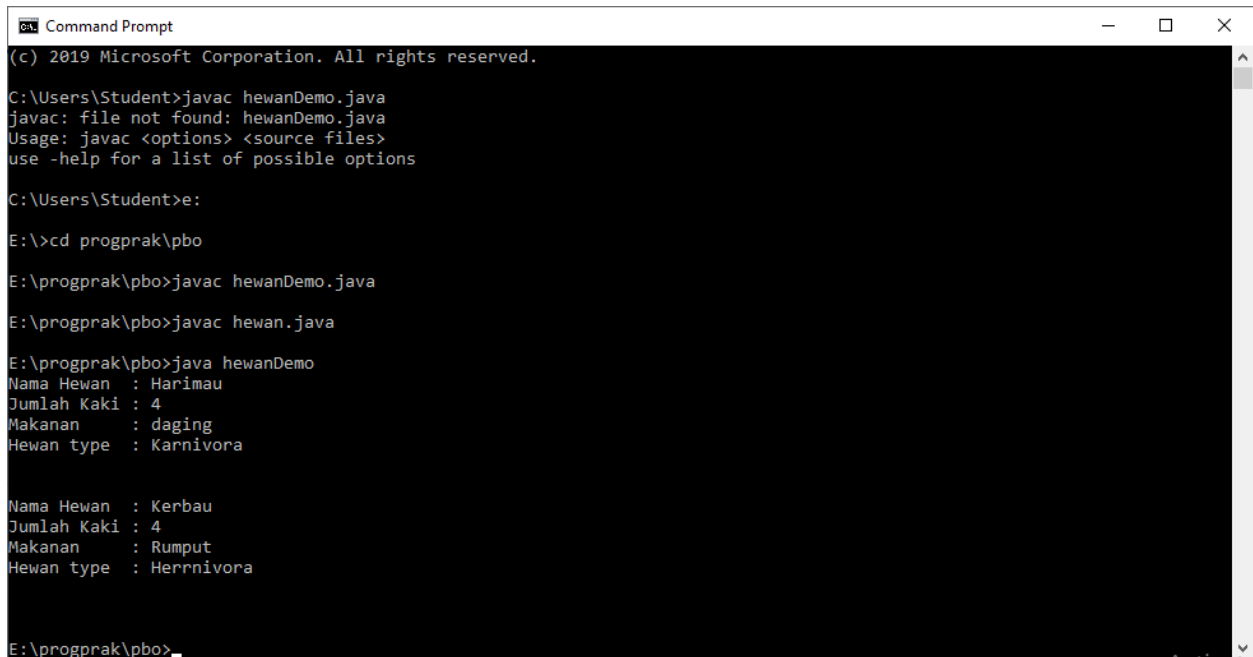

The editor interface includes a menu bar (File, Edit, Selection, Find, View, Goto, Tools, Project, Preferences, Help), a sidebar with 'OPEN FILES' (hewan.java, hewanDemo.java), and a status bar at the bottom showing 'Line 20, Column 2', 'Tab Size: 4', and 'Java'. An 'Activate Windows' watermark is visible in the bottom right corner.

Class hewanDemo

```
1 public class hewanDemo{
2     public static void main(String[] args) {
3         hewan hewan1 = new hewan ();
4         hewan hewan2 = new hewan ();
5         hewan1.getNama("Harimau");
6         hewan1.getJmlKaki(4);
7         hewan1.getMakan("daging");
8         hewan1.getHewanType("Karnivora");
9         hewan1.getInfoHewan();
10
11         hewan2.getNama("Kerbau");
12         hewan2.getJmlKaki(4);
13         hewan2.getMakan("Rumput");
14         hewan2.getHewanType("Herrnivora");
15         hewan2.getInfoHewan();
16     }
17 }
```

Hasil

```
C:\Users\Student>javac hewanDemo.java
javac: file not found: hewanDemo.java
Usage: javac <options> <source files>
use -help for a list of possible options

C:\Users\Student>e:

E:\>cd progprak\pbo

E:\progprak\pbo>javac hewanDemo.java

E:\progprak\pbo>javac hewan.java

E:\progprak\pbo>java hewanDemo
Nama Hewan : Harimau
Jumlah Kaki : 4
Makanan : daging
Hewan type : Karnivora

Nama Hewan : Kerbau
Jumlah Kaki : 4
Makanan : Rumput
Hewan type : Herrnivora
